PORTFOLIO <https://portfolio-six-delta-j1imvbvxm3.vercel.app>

PROFESSIONAL PROFILE

Determined entry-level frontend developer building a future in tech through Uncommon.org. After difficult circumstances interrupted my school path, I chose to keep moving forward. I have four months of frontend learning and is putting that energy into clean, thoughtful websites. Eager to join a team where I can learn, contribute and grow.

TRAINING & EDUCATION

Uncommon.org | Software Development

Current student | Software Development program

Actively developing software-development fundamentals with a current focus on frontend technologies and practical web development.

Glenview 1 High School

Secondary education | Harare, Zimbabwe

Schooling was interrupted by difficult circumstances. This experience built resilience and a strong commitment to practical technology training.

FRONTEND DEVELOPMENT EXPERIENCE

Frontend Development Learner | 4 months

Hands-on learning and portfolio development

Learning by building through course work and personal practice. Focused on turning ideas into responsive, accessible and easy-to-use web experiences.
